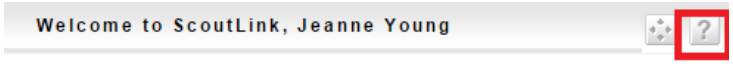
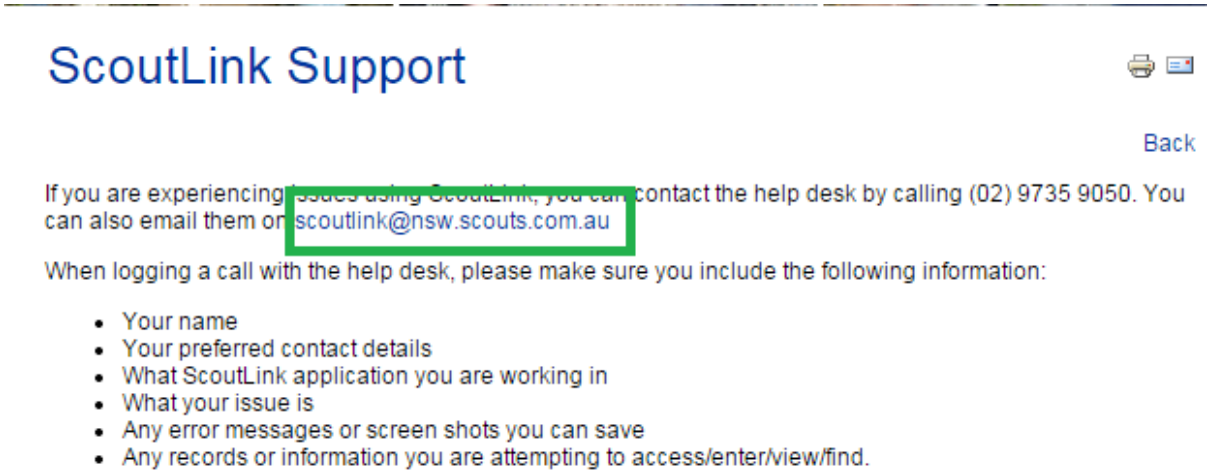
ScoutLink Release Notes
Version 1.2.9

1. Changes Impacting All Current Users

Help Desk

a. The "Help" button at the top right of the screen now directs to the ScoutLink Support page on the state website (http://www.nsw.scouts.com.au/leaders/scoutlink-support). This is an interim measure while we set a Support logging system ; by clicking on the link you can e-mail us directly instead of having your request routed through Djenie's Zendesk.





e-Learning Trigger

d. The e-Learning trigger enhancement is now activated and ScoutLink should automatically send e-mails to members once they've been cleared.
